

Pssst. Wanna Buy Some Cheap Tobacco Chop Chop Bulk Tobacco? You might get more than you pay for!

Chop-Chop bulk tobacco is:

Cheap People buy 'chop-chop' because it costs less. But twigs, straw and grass clippings are regularly added to bulk it up and it's often sold damp or wet to make it weigh more.

Nasty Containing mould, fungus, bleach and other unknown chemicals, 'chop-chop' can make you very sick. It can cause fungal growths in the lungs, emphysema or bronchitis, acute asthma, toxic reactions and irreversible lung damage.

Myths Chop-chop is not organic
It is not safer than regular tobacco.
Keeping it in the freezer doesn't stop the mould.
Drying chop-chop by heating it accelerates mould growth.

Chop-Chop will cost you MORE in the end!

Quit smoking

it's the best way to protect your health.
