Assessing postnatal discomfort and pain, medications and breastfeeding

INSTRUCTIONS FOR STAFF:

This Cue Sheet has been developed to assist midwives and doctors to communicate with postnatal women during times when an interpreter is not easily available.

The written questions and likely possible answers may assist the understanding of non-verbal cues occurring between the woman and the midwife or doctor.

Health care interpreter services in person or by phone are ALWAYS preferable. This Cue Sheet must only be used short-term until an interpreter is available.

Be aware that not all women are literate, in which case this may not be a useful tool for you. However, there may be a family member who is literate who might help you.

LANGUAGE: CHINESE 中文

(for all spoken Chinese languages, eg: Mandarin, Cantonese, Hokkien)

1	Hello, how are you?	Well, OK,	Not well: Do you feel any pain?	No	Yes: Could you show me where you feel pain,
